Parent Guide

Page 3 — Flower Shop Sign 🌸
Place the sign near a small table or play area to create your little flower shop.

Pages 4–5 — Flower Menu 💐
Show your toddler the menu and let them choose from four bouquets and four single flowers.

Pages 6–8 — My Flower Order 📝
Use the checkboxes to keep track of the flowers your child chooses. You can reuse the sheet by erasing pencil marks or printing another copy.

Pages 9–10 — Flower Cards 🌷
Cut out the flower cards before play. When your child's order is ready, give them the matching bouquet or single-flower card.

Pages 11–12 — Pretend Money 💵
Cut out the pretend bills and coins before play. Your little customer can use them to pay for their flowers.

A Little Reminder ♡
An adult should cut out the pretend money and flower cards before play. Let your toddler point, choose, and enjoy the game in their own way. There's no right or wrong way to run a little flower shop!
